Technical bulletin. †

M 101.13: (letter, no.)

NOTE.—Technical bulletins are pamphlets issued to disseminate new instructions and information prepared by technical services pertaining to technical matters concerning weapons and equipment procured and issued by the preparing agency, or to professional technique over which the preparing agency has exclusive jurisdiction. This material may later be incorporated in Technical manuals or changes thereto.

- 12476 IG-1-10. Inspection of adjutant general machine records unit; May 3, 1948. [1948.] 8 p. [Issued with perforations.]

Technical manual TM (series). ● Item 1069

NOTE.—Technical manuals consist of a series of pamphlets supplementing the Field manuals covering subjects, the separate treatment of which is considered essential to a fuller accomplishment of the training prescribed in the Field manual series. The scope of this series includes pamphlets describing matériel and containing instructions for the operation, care, maintenance and handling thereof; guidebooks for instructors and specialists; material for extension courses; reference books; administrative materials; and similar specialized subject matter.

COMMERCE DEPARTMENT

NOTE.—The U. S. Department of Commerce is engaged in numerous activities designed to foster, promote and develop the Nation's foreign and domestic commerce and its industry and trade. Through services of this character, the Department assists in simplification processes, the increase and improvement of production and the elimination of waste in production and distribution. Aids to industry include conducting surveys and research to facilitate the production, transportation and sale of goods and supplying trade information to America's producers, distributors, retailers, and foreign traders; enumerating, compiling and disseminating population statistics as well as special, industrial, fiscal and international trade data; establishing commodity weights, measures and standards; fostering the Nation's civil air transportation system; and disseminating vital weather information. Publications of the Department may be purchased at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., to whom remittances must be sent direct, as his office is not a part of the Department of Commerce. Make checks payable to the Treasurer of the United States.

CONGRESS

NOTE.—All annual reports, appropriation bills, reports, etc., recorded under Congress and both houses of Congress are for the fiscal year unless otherwise noted.

Congressional or Serial set

NOTE.—The contents of the bound volumes of the Congressional or Serial set are not listed in the Monthly catalogs. The House and Senate documents and reports are arranged in check-list order as published each month under House of Representatives and Senate.

The following bound volume of the Congressional or Serial set was sent to depository libraries during the month of May 1948:

House document no. 573, 80th Congress, 2d session. ● Item 253

Laws

NOTE.—The Federal laws are first published separately and in this form are known as "slip laws." Later, these laws are compiled, edited, indexed, and published in the volumes of the Statutes at large. The chapter number given on the slip law is the chapter in which it will appear in the Statutes at large.

Private laws, 80th Congress.

NOTE.—The Division of Research and Publication, State Department, receives a small supply of the private laws which it distributes free upon application.

FEDERAL REGISTER DIVISION, National Archives

NOTE.—The archivist of the United States acting through this division established by him under the provisions of the Federal register act (49 Stat. 500, as amended; 44 U. S. C. and supp. 301 et seq.), is charged with the custody and, together with the Public Printer, with the prompt and uniform printing and distribution of the documents required or authorized to be published under sec. 5 of this act. Such documents required or authorized to be so published are printed and distributed forthwith by the Government Printing Office in a serial publication designated the Federal register. The daily issues of the Federal register are, in effect daily supplements to the Code of Federal regulations, and regulatory documents published therein follow the Code arrangement.

- 13761 Federal register, v. 13, no. 86-106; May 1-29, 1948. [1948.] p. 2363-2941, 4° [Daily, except Sunday, Monday, and day following a legal holiday.] L. C. card 36-26246 AE 2.7: 13/86-106

NOTE.—The Federal register publishes (1) all Presidential Proclamations; and all Executive orders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents or employees thereof; it also contains all Executive orders establishing, amending or revoking civil service rules, and all Executive orders containing a direction for publication thereof; (2) such documents or classes of documents as the President shall determine from time to time to have general applicability and legal effect; and (3) such documents or classes of documents as may be required so to be published by act of the Congress. From Mar. 14,

1936, through Apr. 30, 1948, two hundred and fifty (250) agencies have submitted documents for publication in the Federal register. Suitable indexes are issued monthly, quarterly, and annually. The bound volumes of the Federal register were discontinued on June 3, 1938, and have been replaced by the annual supplements to the Code of Federal regulations.

The Federal register is sold by the Superintendent of Documents on the following terms: Single copy, 15c. minimum (price varies in proportion to size); \$1.50 per month; \$15.00 per year. Subscriptions are payable in advance. Send remittances to the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

GEOLOGICAL SURVEY, Interior Dept.

NOTE.—The publications of the United States Geological Survey consist of Monographs, Professional papers, Bulletins, Water-supply papers, folios of the Geologic atlas of the United States, topographic maps (some of which bear descriptive text), base maps, and other maps of the United States and of single States. Practically all of them are sale publications. The maps and folios are sold by the Geological Survey, Washington 25, D. C. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington 25, D. C.

Maps.

NOTE.—The maps listed below are sold by the Geological Survey. Remittances for these maps should be made by money order payable to the Director of the Geological Survey, Washington 25, D. C. Except as otherwise indicated, a discount of 20 percent is allowed on an order for maps, or for maps and geologic folios, that amounts to \$10.00 at the retail price. In ordering give the name and scale of each map and the State in which the area lies.

Topographic quadrangle maps. †20c. each.

NOTE.—The Geological Survey makes contoured maps—three-dimension topographic maps which are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature within that area.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 20c. each. Except as otherwise indicated a discount of 20 percent is allowed on an order for maps, or for maps and geologic folios that amounts to \$10.00 at the retail price. In ordering, give the name and scale of each map and the State in which the area lies.

PRESIDENT OF UNITED STATES

NOTE. The functions and duties of the Executive Office of the President were established by Executive order of Sept. 8, 1939. The principal divisions at present are as follows: The White House Office, the Bureau of the Budget, the Liaison Office for Personnel Management, the Council of Economic Advisers, the Office of Government Reports, and the Office for Emergency Management.

For information relating to the issuance of Executive orders and Proclamations of the President see below, note under Executive orders.

14426 Executive orders.

NOTE.—The Federal register act (49 Stat. 500 as amended: 44 U. S. C., and supp. 301 et seq.) provides in sec. 5 as follows: There shall be published in the Federal register all Presidential Proclamations and Executive orders, except such as have no general applicability and legal effect or are executive only against Federal agencies or persons in their capacity as officers, agents, or employees thereof.

Those Executive orders and Proclamations published in the Federal register will not be issued separately.

The distribution of Executive orders and Proclamations was transferred beginning Mar. 12, 1936, from the Department of State to the Division of the Federal Register, National Archives. Free distribution will be only to appropriate agencies of the Government. The Federal register will be sold by the Superintendent of Documents, Government Printing Office, Washington 25, D. C., on a subscription basis of \$1.50 per month or \$15.00 per year.

PUBLIC ROADS ADMINISTRATION, Federal Works Agency

Transportation maps.

NOTE.—These maps show in color, to a scale of 1:250,000, the Federal-aid and State highways, with status of improvement, principal connecting roads, railroads, air ways, and airports, canals and navigable channels—in short, all the media of organized transportation. They also show the boundaries or locations of National and State forests and parks, Indian reservations, military and naval reservations and recreational areas with the roads leading to them. Special maps to a larger scale (1:125,000) printed as inserts on the regular sheets, where practicable, show in better detail the transportation routes within the larger metropolitan areas. The sheets are uniform in size 26×36 inches, oriented with the longer dimension east and west.

Maps in this series of more than half the States have been published and others are in course of preparation. Revised editions are prepared and published from time to time.

- 14460 Maine, transportation map, highways, railroads, canals, air lanes, and dredged channels; highways corrected to Feb. 1, 1945. Scale 1:250,000, approximately 1 in.=4 m. SMITHSONIAN INSTITUTION

NOTE.—The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge; 2. Smithsonian miscellaneous collections; 3. Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad, and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the Smithsonian Institution. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but some of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The only Smithsonian publications that are regularly issued as public documents are the annual report volumes.

STATE DEPARTMENT

NOTE.—All publications of the Department (except laws, treaties, through Treaty series 994, and translations) have, since Oct. 1, 1929, been numbered consecutively. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are first published in slip form in separate series (public and private) and are numbered within each series in the order in which they become law; they are later published in bound form in the United States Statutes at large. The Department of State publications entitled Treaty series and Executive agreement series have been discontinued. The Treaties and other international acts series has been inaugurated to make available in a single series the texts of treaties and other instruments (such as constitutions and charters of international organizations, declarations, agreements effected by exchanges of diplomatic notes, et cetera) establishing or defining relations between the United States of America and other countries. The texts printed in the present series, as in the Treaty series and Executive agreement series, are authentic and, in appropriate cases, are certified as such by the Department of State. The Treaties and other international acts series begins with the number 1501, the combined numbers in the Treaty series and Executive agreement series having reached 1500, the last number in the Treaty series being 994 and the last number in the Executive agreement series being 506. Spanish Portuguese, and French translations, prepared by the Department's Division of Language Services, have their own publication numbers, running consecutively from 1. The Department of State Bulletin published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties, and other material on the Department's work. The Bulletin contains each week a list of Department publications released that week.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

For information concerning Executive orders and Proclamations of the President, formerly published by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, see Federal Register Division, National Archives, Federal register.

TAX COURT

NOTE.—The Court's reports are first promulgated in leaflet form, designated as "advance sheets." At the end of each month, these advance sheets are consolidated into pamphlet form and published as "advance parts." Later, the advance parts are consolidated and issued in bound volumes. A list of memorandum opinions is included in each volume. Both the advance sheets and the advance parts are sold on subscription by the Superintendent of Documents, Government Printing Office, Washington 25, D. C. The subscription price of the "advance sheets" is \$2.25 per volume, foreign subscription, \$2.85; single copies usually 5c. The "advance parts," or monthly consolidations are sold as follows: \$1.25 per volume, foreign subscription, \$1.85 (single copies vary in price). The price of the bound volume will be given upon application.

The numbers listed below under Opinions indicate those separately published since the last issue of the Monthly catalog.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a semimonthly list of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a session of Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents and reports because there are usually more than 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing

the document. A double dagger (§) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e. g., H. rp. 2, 80th Congress.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., by coupon, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D. C.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards and requests for information about them should be addressed to the Card Division, Library of Congress, not to the Superintendent of Documents. Checks or money orders

should be made payable to The Librarian of Congress, and forwarded directly to The Librarian of Congress, Washington 25, D. C.

MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sold on subscription, price \$3.00 a year, including index; foreign subscription, \$3.75 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEXES (ANNUAL AND MONTHLY)

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

A monthly index of the principal subjects is to be found at the end of each issue of the Monthly catalog.

Notes of Special Interest

An announcement was enclosed with the March issue of the Monthly Catalog concerning a proposed Cumulative Index covering the period 1941-47. A request was made that subscribers to the Monthly Catalog who would be interested in purchasing the proposed volume at a cost between \$20.00 and \$25.00 notify the Superintendent of Documents before March 15, 1948.

To date, returns have been received for only 608 copies. Two thousand subscriptions will be necessary to produce the index within the proposed price range.

Persons who may have missed the initial announcement may still indicate their interest by addressing a card or letter to the Superintendent of Documents, Government Printing Office, Washington 25, D. C., before August 15, 1948.

This issue of the Monthly Catalog lists 2 publications of the Tariff Commission which have the classification numbers of the Superintendent of Documents printed on the covers. This innovation resulted from a study made by the Tariff Commission which indicated that many users of Government documents file the documents according to the Superintendent of Documents classification numbers. The Division of Public Documents is glad to work with the Tariff Commission in assigning classification numbers before publications are printed, and an invitation is extended to other Government agencies which may desire to print the classification numbers on their publications.

The Superintendent of Documents cannot, of course, print the classification number on any publication without the consent of the issuing agency.

This issue of the Monthly Catalog is being produced without the editors of the Catalog reading the proof. This is an effort to further speed the production of the Catalog and the decision was arrived at after a check of proofs for previous issues revealed that only inconsequential errors have been detected as a result of proofreading by the editors. In the future the proof will be read only by the printers, and we shall ask our readers to overlook any minor errors which may result from this effort to speed delivery of the Catalog. Any serious errors, of course, will be corrected in the following issue.

Corrections for Previous Monthly Catalogs

June 1948. Entry 14580, on page 713, should have been cataloged as International organization and conference series IV, United Nations Educational, Scientific and Cultural Organization 4, and should have appeared under a different entry number on page 712.
